**QUALITY**

ABS (shock resistant, recyclable plastic)

**FINISH**

sprayed in matte white

**CONFECTION SIZE**

women EU size 36 / men EU size 48

**ASSEMBLY**

user-friendly fittings

**INCLUDING**

neck cap for headless presentation

rectangular base - brushed stainless steel - with calf fixation

COSMIC introduces a new generation of mannequins made of ABS plastic. Compared to Fiberglass, ABS is more sustainable, durable and user-friendly material that offers you a lot of advantages.

**100% RECYCLABLE**

ABS plastic is a thermoplastic material which can easily be recycled. By using ABS, we reduce the impact of the environment.

**RESISTANT TO IMPACTS**

The molecular structure of ABS makes the mannequins incredibly resistant to impacts.

**LIGHTNESS**

ABS mannequins benefit a reduced weight of 30 up to 50% compared to FRP and PU mannequins.

**UV PAINTING**

All mannequins are sprayed with VOC (=Volatile Organic Compound) free paint. The UV painting procedure ensures a higher surface quality but above all a higher scratch resistance compared to traditional painting procedures.

**FLAME-RETARDANT**

Class UL94 HB

Slow burning on a horizontal specimen.
